ETHER sp

Industrial 3D Printer

3D PARADISE
DISCOVER | DESIGN | DEVELOP
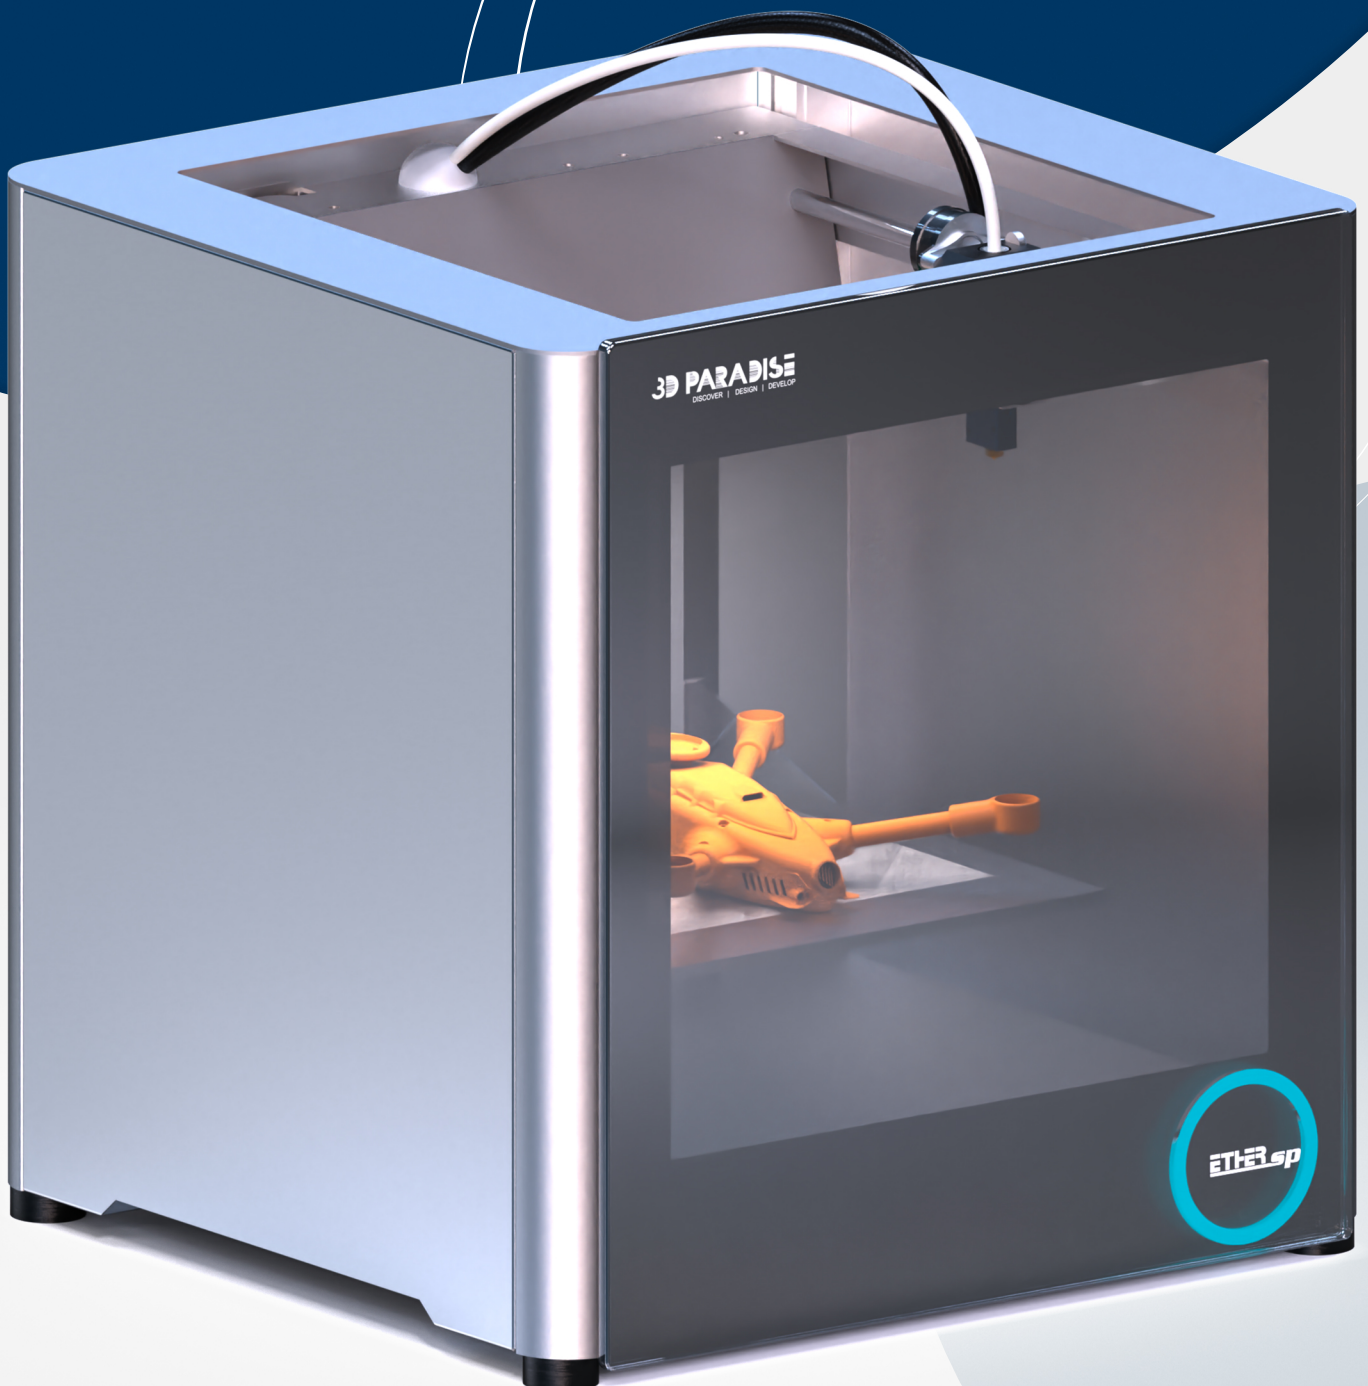

High-quality mechanics for 24-7 operation

High-torque extruder

High speed 3D Printer

Solid metal structure for rigidity

Wifi

Pen-drive support

Power failure resume option

ETHER sp

Feature	Description
Resolution	0.06mm in z axis, 0.05mm in x,y axis
Printing Speed	Up to 300mm/sec
Build Volume	250x250x250 mm
Temperature	300Deg C nozzle, 150Deg C bed
Connectivity	Wi-Fi, USB, Pen-drive
Materials	PLA, ABS, PLA-cf, TPU, TPE and all PLA composites.
Accuracy	50microns
Software	User-friendly software for easy printing and design
Applications	Inudustrial, educational, architectural Medical models, and more
Installation	On-Site by manufacturer.
Warranty	1 year
